DETAILED ACTION

IT IS NOTED THAT DUPLICATE Claims 16 and 17 were presented, but a preliminary amendment has indicated a cancellation of the 1st set of claim 16, 17. In response to this office action, it is requested that applicant supply a clean copy of all claims (1-88), and any subsequent claims added thereon in response to this restriction requirement.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16; 17-21, 22 and 89 are, drawn to a concrete mixing drum, classified in class 366, subclass 57.
 - II. Claims 23-30; 31-72, 73; 74-88, drawn to a method of making a molded molded drum, classified in class 264, subclass 239.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group II and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product is broad to encompass that it may be made by spray coating a plastic layer in the drum as evidenced by claim 1, or the process may be used to produce a different product such as a molded drum for a washing machine tub.

Art Unit: 1723

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Todd Rathe on JAN 15, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made. Since the examiner has requested a clean copy of the claims, and whereas during the conversation, it was indicated that applicant is intending to provide a preliminary amendment to the claims for better form for examination. It was agreed to provide a written restriction requirement and a period of response.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tony G Soohoo whose telephone number is (571) 272 1147. The examiner can normally be reached on 7:00 AM - 5:00 PM, Tues. - Fri..
